

tel-egels herfst

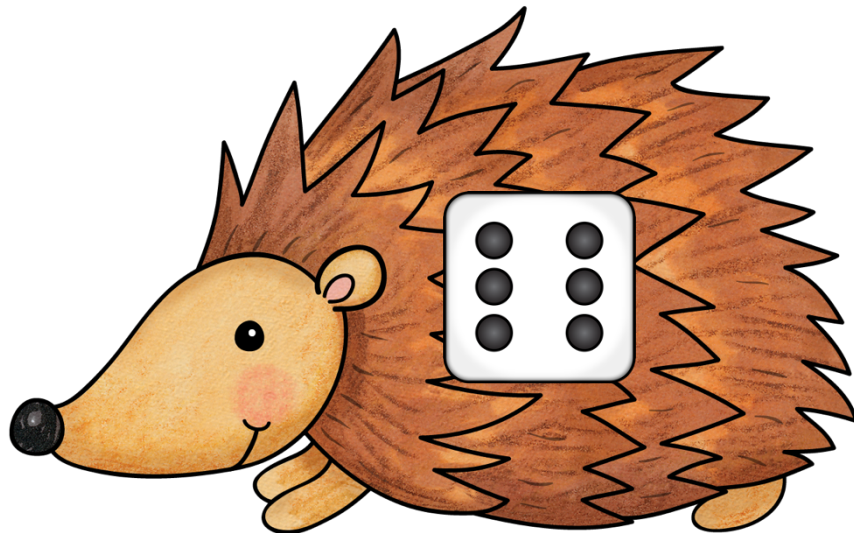

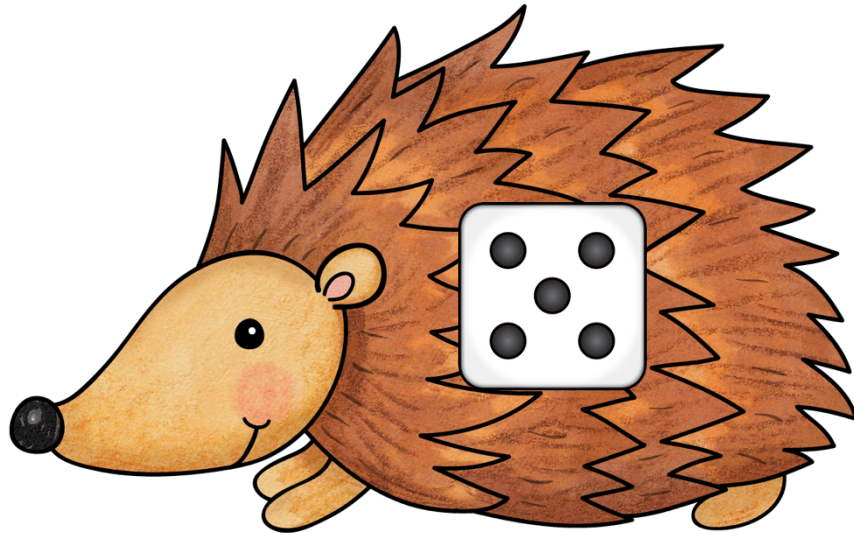

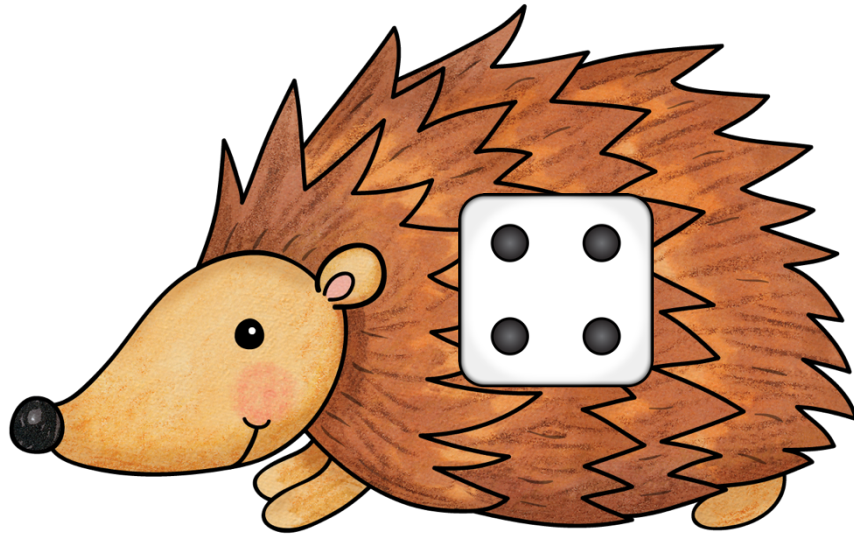

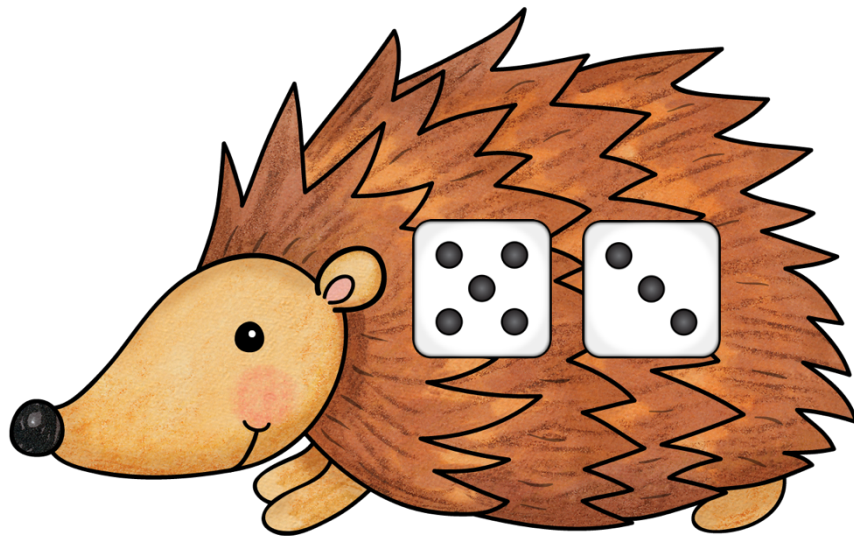

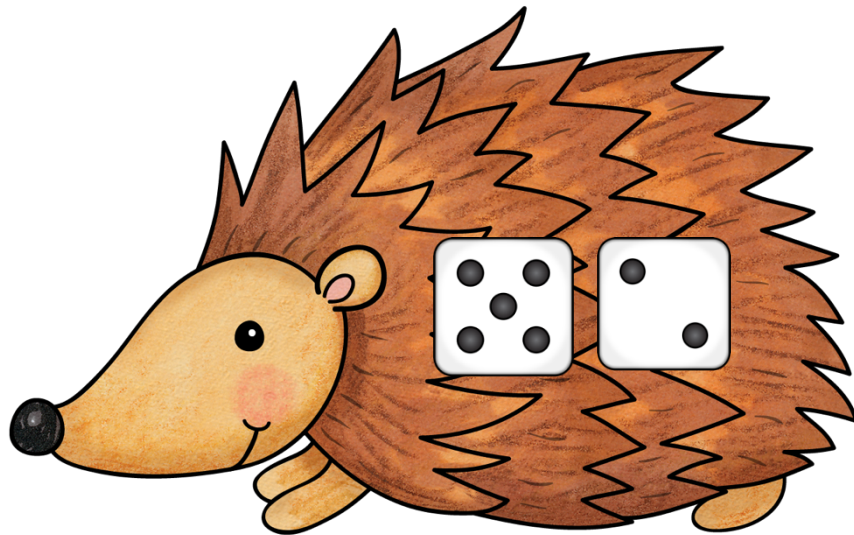

Met deze tel-egels kun je werken aan verschillende rekendoelen rond de telrij, getalbeelden en hoeveelheden!

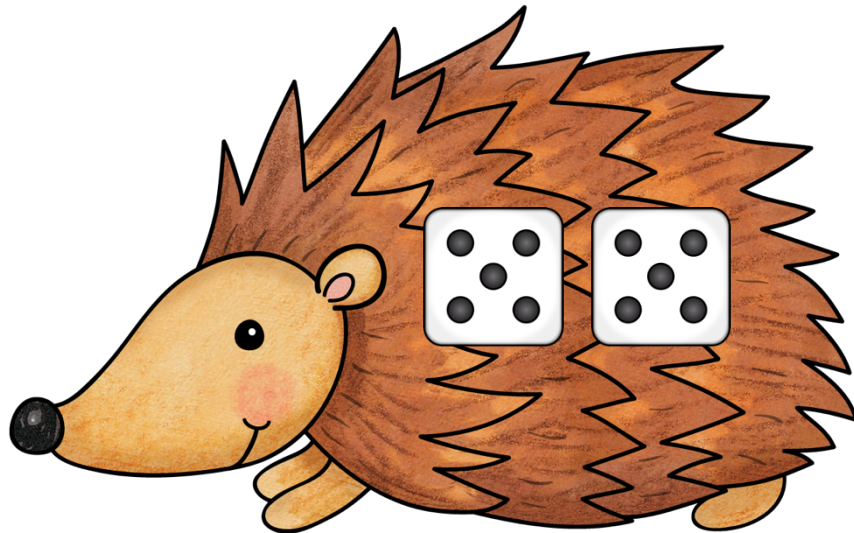

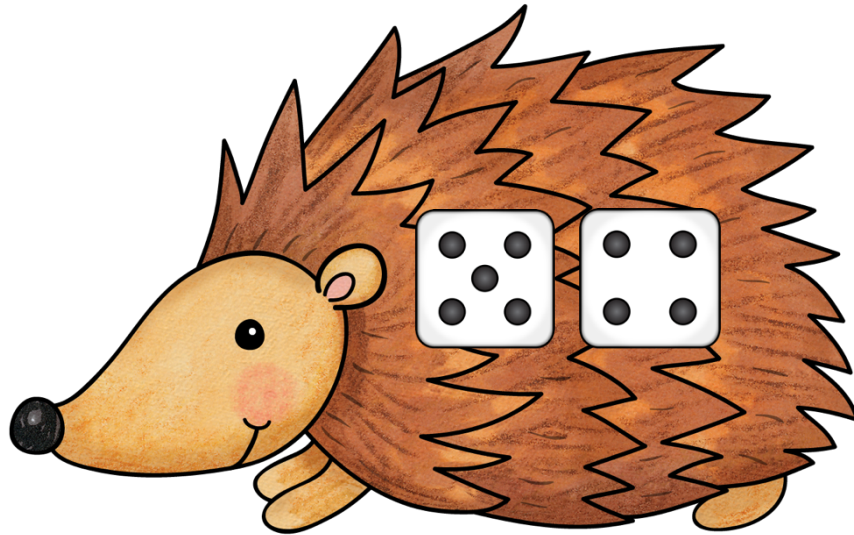

- Koppel getalbeelden aan het rekenrek. Zoek de juiste egels bij elkaar zodat ze samen een familie vormen.
- Koppel getalbeelden aan getsymbolen, breng de egels naar het hol met het juiste getsymbool.
- Lamineer de egels en laat hetzelfde aantal wasknijpers vastknijpen.
- Laat de kinderen sommetjes maken met de diverse egels en daar de juiste uitkomst bij leggen.
